Meeting called to order at 6:45 pm

1. Agenda Review/Additions: None.

Old Business:

1. World Café now referred to as Community Summit, coming together and taking shape—early November, focusing on undoing racism, with standout draw at beginning and ending sessions and action steps by community in between (Kathleen). Potential speakers being approached.
2. Review Town Meeting article on Drones—the motion presented by the petitioners has been modified from what the Commission voted to support. Those present preferred to reaffirm their support of the original petition and refrain from actively supporting new version until they have had a chance to review it.
3. Human Rights Awards Picnic—June 15, Mill River-noon. Kathleen volunteered to approach local Baha'i group for assistance with food. HR budget to supply most of it, with potluck from members. The request for Awards nominations has been circulated at the schools and is on the town website. More discussion needed at next meeting.
4. Commissioners present requested project updates from Ingrid, Carol and Greg and asked that time be set aside for Commission to discuss its own processes, projects and priorities.
5. No votes were taken.
